

Jennifer Kiyome Provost

OBJECTIVE

To join a team that will allow me to improve as a Technical Artist and will benefit from my work.

SKILLS

Art

Maya, 3dsMax, Photoshop, After Effects, Flash, Mudbox, Combustion, Premiere, Painter, Various Traditional Mediums

Scripting

MEL scripting, Python, Maxscript

EDUCATION

DigiPen Institute of Technology, Redmond, WA

September 2005 - May 2009

B.F.A. in Production Animation

Clark Community College, Vancouver, WA

September 2003 - June 2005

Explored programming: HTML, Python, Visual Basic

PROJECTS

Winter Wars: 2D iPhone Shooter

September 2009 - December 2009

Contributed all visual elements of the game.

Hunger Pains: 3D Animated Short

December 2008 - April 2009

Worked as the Setup Artist on Team Dragon doing the rigs for the female protagonist and little dragon. Also, helped the team to overcome technical difficulties in 3ds Max.

Narctopus: 3D Puzzle/Exploration game

September 2008 - April 2009

Worked on a team of five artists, three of which I supervised. I contributed concept art for much of the world, models, the rig for the tortoise, and most of the world's textures. I also assisted the programmers in getting assets into the game, and made sure assets worked properly.

Starblitz: 3D Shooter

September 2007 - April 2008

Was the sole artist for the project and made all of the visual elements in the game, including a 30 second opening cinematic, as well as contributed during design meetings.
